

Data Sheet

## KEY BENEFITS

### ELIMINATE DIRECT EXPENSES

By adding a download module to your webstore, you can eliminate direct expenses such as paper costs, binding costs, printing costs, CD and DVD costs, and packaging costs because items can be downloaded directly to the customer.

### ELIMINATE OVERHEAD EXPENSES

By adding a download module to your webstore, you can eliminate overhead expenses such as warehousing costs because items no longer require storage at your site. Reduce warehouse labor costs by eliminating product shipment for downloadable products.

### HELP YOUR MARKET RESEARCH

By adding a download module to your webstore, you can keep a record on the number of times every product has been downloaded and get a better picture of market trends and customer preferences.

## INTEGRATION

- Microsoft Dynamics GP Sales Transaction Entry
- Azox Sales Line User Defined Module
- Azox E-Commerce suite

## ADDITIONAL FEATURES

- Control the maximum times a customer can download a file. Maximum download times can be configured differently for different item groups.
- Allow multiple downloads of the same file.
- Display the remaining times the customer can download the product.
- Specify when a download expires.
- Optionally display a license agreement that must be accepted by the customer before the customer can download the product.
- Offer sample products to be viewed or listened to from the item detail page.

**eSource Download provides your company the ability to sell downloadable products on your eSource webstore.** Your customers can download products, after purchase, instantly with the click of a button. The eSource the Download module can save your customers money by eliminating shipping costs and increase customer satisfaction with immediate availability of their product.

## MAIN FEATURES

With the eSource Download module your customers can download files after placing orders on your eSource webstore. Mp3, WAV, PDF, and HTML are just a few examples of the file types that can be downloaded.

In the eSource Download module you can categorize your downloadable products into groups. Within each group you can specify such settings as the maximum number of times a file can be downloaded, as well as when the download expires. These settings will be stored specifically for each item in fields automatically created within Microsoft Dynamics GP Sales Order Processing. These fields can be reviewed and tracked for monitoring and control purposes.

You can also setup sample products that can be viewed or listened to. The files associated with the sample products can be accessed from a link in the item detail page. By clicking the image link, the user is able to download or play the sample file. See below for a sample item detail page of a downloadable product.

- *Online Bill Pay Solutions*

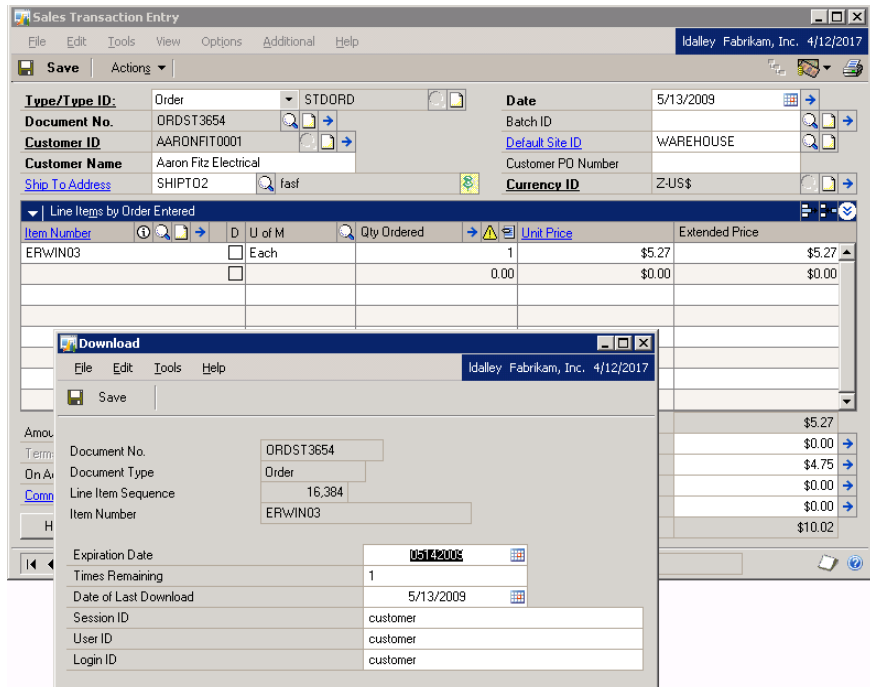

Once your customer has placed an order of downloadable items, those items are available for download on the eSource website's Download page. All previously purchased downloadable items for the logged-in user are displayed and are available for downloading.

The fields displayed on the Download page are chosen by you and can include the product description, the expiration date for download, number of times this particular product has been downloaded, and product purchase date. See below for a sample Download page.

### Downloadable Items

Item #▲	Description	Expire Date	# of times downloaded	Purchase Date	Download
PROSELL	 Professional Selling	05/19/2009	1000	05/14/2009	
1					

You also have the option of displaying a license page prior to the actual download of the product. The License page can be used to control customer acceptance of licensing agreements. If the customer accepts the terms of the agreement, the customer can continue to download the product. Disagreement prevents the user from downloading the product.

The screenshot shows the 'Sales Transaction Entry' window for 'Idalley Fabrikam, Inc.' dated 4/12/2017. The main window displays order details for Order ID ORDST3654, Customer ID AARONFIT0001, and Customer Name Aaron Fitz Electrical. A 'Download' dialog box is open, showing details for the selected item ERWIN03. The dialog includes fields for Document No. (ORDST3654), Document Type (Order), Line Item Sequence (16,384), Item Number (ERWIN03), Expiration Date (05/19/2009), Times Remaining (1), Date of Last Download (5/13/2009), Session ID (customer), User ID (customer), and Login ID (customer).
