

Data Sheet

KEY BENEFITS

FILTER PRODUCT RESULTS EASIER

Filter results from a single drop down menu.

VIEW PRODUCTS THAT MATCH YOUR CAR

Sorting through countless products can be time consuming. Visitors can easily find auto parts that are designed to match a car make, model and vehicle year.

DEFINE YOUR OWN ATTRIBUTE DROP-DOWNS

Create your own unique attributes and allow shoppers to more specifically define their cars by selecting through drop-downs that include sub-model level, engine size or any label you want.

Microsoft Partner

Gold Enterprise Resource Planning
Silver Independent Software Vendor (ISV)

Filter the search result based on a car's make/model/year values from a selected drop-down list.

Allow large automotive parts inventories to be more easily searchable by allowing customers to select their car make, model and year using drop-downs to ensure the correct parts appear when looking through product pages.

Searchable Features

- narrow results by unique attributes
- clear filters
- save vehicles to lists

Select a Model

Select a Year

Item: RACINGWHEEL
 Size: 17 x 8.5
 Backspacing: 5.66"
 Weight: 21.2 Lbs.
 List Price: \$259.00
 Your Price: \$139.99

1 [ADD TO CART](#)

In the illustration above, visitors can select a make from the drop-down menu, then the second drop-down list will be filtered based on the model selected. Similarly the third drop-down, Year, will be listed based on the make and model selected. The final result will display the list of items matching the shoppers year, make, model selections.

Save Your Vehicles To a List

Different vehicles can be saved and kept in a list, allowing for easier access to your saved vehicles for future browsing and purchases.

Saved lists can be managed and vehicles can be selected and removed from the list.

Online Attribute Setup

With online attribute setup, you can link attributes, combine attributes and values together and assign them to an item.
