### Tap into rising mobile purchases with a webstore made for mobile shoppers.

By 2015, it's predicted that mobile purchases will total \$119 billion globally. Keep up with consumer buying habits by offering a mobile optimized store that allows mobile phone shoppers the ability to easily navigate and purchase products from the convenience of their own phones.

### Features

- Capture a growing audience of mobile shoppers
- Branch your e-commerce stores to mobile devices such as Android, Windows Phone, or iPad devices
- Experience the same seamless integration to Microsoft Dynamics GP that you get with other Azox e-commerce sites.
- Supports coupon code promotions at checkout
- Provides email order confirmations at checkout

With mobile optimized stores, users will easily be able to navigate your mobile shopping site from their own mobile devices. It has the same functionality as the regular e-commerce site with a redesigned branding that allows mobile shoppers to quickly and easily find the products they want and order them.

Expanding your brand to mobile users opens new channels, provides more convenient shopping experiences, and helps build your overall image.
