

Data Sheet

KEY BENEFITS

FILTER PRODUCT RESULTS

Filters allow users to find exactly what they want by letting them select specific values under each product attribute.

REFINE RESULTS FASTER

Sorting through countless products can be time consuming, easily display products that match your criteria.

DEFINE YOUR OWN FILTERS

Create filters that are unique to your products.

INTEGRATION

- Azox E-Commerce suite

WHY FILTERS

Users can add as many filters as they like on product pages, these will work together to provide the customer with the products that only satisfy all their criteria.

Shopping assistance that can influence purchases by showing users different categories to help match user needs with product attributes.

ABOUT AZOX

As a Microsoft Gold Certified Partner and Strategic ISV, Azox is a recognized leader in e-commerce solutions for the Microsoft Dynamics market. Dedicated to developing and marketing software for Microsoft Dynamics, Azox produces solutions in these key areas:

- E-Commerce Solutions
- E-Payment Solutions
- Online Bill Pay Bundle

Microsoft Partner

Gold Enterprise Resource Planning
Silver Independent Software Vendor (ISV)

Azox Filters module allows users to refine their product browsing results based on certain attributes and values of a product.

Have customers define their product search through common attributes/categories like price range, brand, type, size, style, etc. Have associated values assigned to each filter and allow users to narrow down their results to the products they specify.

Features

- Refine results by attributes
- Clear filters
- See which filters you have selected

Key

● = Filter Attributes
(e.g. Price, Type, Size)

■ = Attribute Values
(e.g. \$21-\$40.99, Red, 750 ml)

You have selected:

Price : \$21 - \$40.99

Type : Red

Size : 750 ml

[Narrow Results](#) [Clear Filters](#)

- Price
 - \$0 - \$20.99
 - \$21 - \$40.99
 - \$41 - \$60.99
- Type
 - Red
- Size
 - 750 ml
 - 375 ml

(in this example multiple filter attributes are selected. The user has chosen to narrow down their result to wine that is 750 ml, Red and \$21 - \$40.99. Only those products are displayed.)

Setting up Filters

Filters are setup through the browser based eSource Settings. Users can create attributes and corresponding values, as well as assign attributes/attribute values to individual items. Setup can be automated through an import utility that creates and assigns attributes once uploaded.

- Setup anywhere online
- Add attributes instantly
- Assign items to attributes
- Add more attribute values
- Import attributes from Excel

Attributes	Attribute Values assigned to 'Size'
