

Top 5 Reasons to Partner With Azox

1. Easy to Brand Webstore

With our latest web-based platform eSource II, changing the look-and-feel of a website is more manageable with skinnable technology. In addition, drag and drop webparts allow web elements to be moved and manipulated around a page.

2. Seamless Integration

eSource is built on Microsoft Dynamics GP, which allows for a single point of maintenance. Changes in inventory and customer records are all handled simultaneously on the webstore and within Dynamics GP. Save time from maintaining records in two databases.

3. Strong Support

Azox is known for its good support with customers thanks to its knowledgeable workforce of Microsoft Certified Professionals. Whether it is via phone, email or through GoToMeeting Azox ensures any issue that may arise is handled quickly and correctly.

4. Customizable Solution

Azox offers out of the box eCommerce functionality with many available add on features allowing you to configure a solution that fits your needs. Out of the box means you don't have to wait for a custom built solution. Pay for only the features you want.

5. Multiple Environments

Whether you are looking for a B2B, B2C or Sales Portal environment Azox has a solution that fits your business needs.
