

## Data Sheet

### KEY BENEFITS

#### COMPLETE INTEGRATION

Use one system for both online credit card orders and Microsoft Dynamics GP orders.

#### PRODUCT FLEXIBILITY

Ability to charge credit cards from several windows which allows you to validate and process a transaction anytime.

#### MONEY SAVING TOOL

The discount rate offered for the credit card integration ultimately pays for the software and them some.

#### REAL-TIME VERIFICATION

Validate a credit card right from the Microsoft Dynamics GP Sales Transaction window.

### INTEGRATION

- Microsoft Dynamics GP Sales Order Processing and Receivable Management modules.
- Azox E-Commerce suite.

### SUGGESTED GATEWAYS

- PPI – Paymover
- Verisign – Pay Flow Pro
- Authorize.Net
- Moneris
- Sage

### Benefits for your webstore:

- Real-time credit card authorization and transaction into Microsoft Dynamics® GP from your webstore.
- Saves last four digits of credit cards which can be seen on the webstore.
- Supports multiple gateways.
- Saves multiple encrypted credit cards numbers per customer.

## Credit Card Extension

**Credit Card Extension integrates with multiple gateways providing reliable service and a PCI compliant solution for credit card processing within Microsoft Dynamics® GP.** Teaming with industry-leading providers, Azox offers real choices with the flexibility to configure the solution that best fits individual customer needs. Whether creating a new merchant account or maintaining a trusted relationship, Azox Credit Card Extension (CCE) provides the highest levels of security and flexibility available in the industry. CCE features include:

- Ability to process credit card transactions within multiple windows
- Provides encrypted storage and retrieval of multiple credit card numbers for each customer in Microsoft Dynamics® GP
- Supports multiple merchant accounts for each company
- Allows for partial fulfillment of approved credit card transactions

## Credit Card eInterface

Credit Card eInterface is a fully integrated web-based credit card solution for your on-line storefront. Credit Card eInterface provides real-time credit card validation and pre-authorizations on-line. When combined with Credit Card Extension, it can automate and streamline credit card payment processing in Microsoft Dynamics® GP. Features include:

- Instant online pre-authorization for real time on-line credit card processing
- Allows integration of a custom webstore to Credit Card Extension
- Access to online reporting

## PCI Compliant

Azox Credit Card Extension (CCE) has achieved Payment Application Data Security Standard (PA-DSS) validation and adheres to the Payment Card Industry Data Security Standard (PCI-DSS). CCE integrates with multiple gateways providing reliable service and a PCI compliant solution for credit card processing within Microsoft Dynamics GP. By being PA-DSS validated CCE is more secure and offers the following security measures.

- Supports AVS (Address Verification Service)
- Supports CVV2 (Card Verification Value) to mitigate fraud risks
- Supports Level 2 and Level 3 Verification
- Allows the use of Gateway Fraud Filter

## TESTIMONIAL

*"Since we don't have to pay the fee-per-transaction anymore, implementing Azox Credit Card Extension paid for itself in less than five months."*

Sue Christensen  
**Accounting Manager**  
Living Essentials

## ADDITIONAL FEATURES

- Defaults credit card transaction type automatically based on sales document type and transaction history.
- Allows manual entry or updates of credit card information.
- Reauthorizes expired authorizations by batch.
- Assigns security levels for each user class based on credit card transaction types
- Auto-populates Microsoft Dynamics GP in sales payments entry window for approved sale/post authorization credit card transactions.
- Provides credit card transaction with report, receipt, and specific transaction inquiry.

## SYSTEM REQUIREMENTS

- Microsoft Dynamics GP 8.0 to 10.0
- Microsoft .NET Framework
- Windows server 2003 or later
- Internet Information Server (IIS) 5 to 7
- SQL Server 2000 or later
- Internet access required
